

An aerial photograph of a tropical beach. The water is a vibrant turquoise color, transitioning to a lighter shade near the shore. A wide, white sandy beach runs across the middle of the frame. In the foreground, two people are kitesurfing, leaving white trails in the water. A small island with several palm trees and greenery is situated in the middle ground. In the background, a range of low mountains or hills stretches across the horizon under a clear blue sky. The word 'AMAN' is overlaid in white, stylized capital letters across the center of the image.

AMAN

AMANPULO

Accessible only by private plane, tropical Pamalican Island is around an hour from Manila, yet feels a world away from anywhere. Amanpulo is the only property on this Philippine island, its airy Casitas and Villas opening to the 5.5-kilometres of coral sand that encircle a jungled centre. With a convivial poolside Clubhouse, an Aman Spa, Dive Centre and a laidback Beachclub, guests can be as active as they choose; a snorkel on your private beachfront might be all the exertion required to complete a day of restorative lounging. Other diversions include tennis courts, island hikes, turtle spotting and exploring the kaleidoscopic reefs just offshore.

## Location

- Pamalican is part of the Quiniluban group of Cuyo Islands in the Sulu Sea, 360 kilometres south-west of Manila
- Seven kilometres of reef surround the 85-hectare island on which hawksbill and green sea turtles nest

## Getting There

- Manila is accessed by daily direct flights from most Asian and international cities
- Complimentary car transfer from Manila airport to Amanpulo's private lounge and hangar is available for same-day flight connections
- From Manila, guests fly directly to Pamalican Island in a 15-seat, twin-engine turboprop, landing at Amanpulo's private airstrip. Flight time is 70 minutes each way

## Accommodation

Elevated on the hillside or set by the beach, Amanpulo's casitas and villas were designed by acclaimed Filipino architect Francisco Mañosa. Inspired by traditional Philippine dwellings, they feature vaulted wooden ceilings, pebble-washed walls, coconut-shell tables and large Cebu marble bathrooms, along with private outdoor decks.
